Meeting Minutes (FINAL)
Bloomfield Local Road Safety Committee

A regular meeting of the Bloomfield Local Road Safety Committee was held on Friday March 12, 2026, commencing at 10:00 a.m. in the conference room at Department of Public Works.

Members present: Chief Paul Hammick, Police Department, Deputy Chief Stephen Hajdasz, Police Department, Dan Carter, Director of Public Works, Robert Trottier, Town Engineer; Darin Lemire, Deputy Town Engineer

Acceptance of Minutes

The minutes for the December 2025 meeting were accepted as submitted.

Recent Traffic Calming Related Activities

The Committee discussed current activities conducted and other information since the last meeting. It was noted that one new traffic calming request was received since the last meeting. The request related to speeding by cars on Duncaster Road. Speed data collected in 2025 was reviewed. The Committee decided that the Police Dept will increase enforcement in the area and engineering will reach out to the requestor to get additional information and discuss possible calming measures such as the addition of a shoulder line.

The Committee reviewed recently collected speed shield data (in January and February) from Wintonbury Avenue, Crestview Drive, Mills Lane, and Tunxis Avenue. The northbound data for Crestview showed qualifying data in the northbound direction. A neighborhood information meeting will be scheduled for Crestview Drive.

The Committee reviewed truck restrictions measures on Gabb Road.

Engineering Dept provided a status update of the Maple Avenue Traffic Calming Design, Prospect Street Sidewalks project, and Woodland Avenue. For Maple Avenue, the final design and bid documents are almost completed. Available funding will need to be reviewed. For Prospect Street, preliminary design is completed and a public information session is to be scheduled. For Woodland Avenue, LOTCIP funding was requested for additional sidewalks and the town expects to be informed if project was accepted in May. The Committee discussed a Peters Road/Highland Park Drive pedestrian safety complaint. A letter from a business on Peters Road detailing pedestrian safety concerns was received. The Police Dept will deploy the speed shield to the area to get additional information.

Plastic barricades and No Thru Traffic signs will be installed at 330 Park Avenue as part of effort to increase parking lot safety and cut through traffic in the back of the building.

The Committee reviewed the traffic calming spreadsheet.

Future Activities

The next scheduled LRSC is June 11th at 11 am at Department of Public Works. A calendar invite will be sent out.

The meeting was adjourned at 11:25 a.m.
